

Automotive Tech Day 2023

INVITATION

11 May 2023

ROHDE & SCHWARZ

Make ideas real

Rohde & Schwarz Automotive Tech Day May 11, 2023

A free educational event on the latest test techniques across a wide range of automotive topics.

Automotive technology is evolving fast and so are the test techniques required for development, verification and production of chipsets, components and vehicles. The R&S Automotive Testing Seminar provides an opportunity for industry professionals to get up to date on hot topics in the automotive ecosystem and their test and measurement implications; from ADAS and radar to electric drive train and C-V2X.

Sessions will be delivered by technical experts from Rohde & Schwarz.

Topics:

- Cost-effective automotive radome and bumper testing
- Game changing solutions for automotive radar testing
- Advances in C-V2X and Automotive Connectivity
- Automotive Ethernet and next-Generation In-Vehicle Network Architecture

We will conclude the seminar around 15:45 with demonstrations and time to mingle and have a drink.

Date: Thursday May 11, 2023

Time: 08:45-16:45 (incl. coffee breaks and lunch)

Venue: Uni3, Pumpgatan 1, 417 55 Göteborg

11 May 2023
Göteborg
