

Customer information regarding product disposal

- In line with 2012/19/EC on waste electrical and electronic equipment (WEEE)

Product labeling in line with EN 50419

Once the lifetime of a product has ended, this product must not be disposed of in the standard domestic refuse. Even disposal via the municipal collection points for waste electrical and electronic equipment is not permitted.

Rohde & Schwarz GmbH & Co. KG has developed a disposal concept for the eco-friendly disposal or recycling of waste material and fully assumes its obligation as a producer to take back and dispose of electrical and electronic waste in line with the ElektroG Act.

Please contact your local service representative to dispose of the product.
