R&S®TRUSTED OBJECTS MANAGER

Specifications

Description

R&S®Trusted Objects Manager is the central management appliance for Rohde & Schwarz Cybersecurity products.

The management system allows central and easy-to-use administration of products like R&S[®]Browser in the Box, R&S[®]Trusted VPN, R&S[®]Trusted Disk, R&S[®]Trusted Identity Manager and R&S[®]Trusted Mobile. After a single installation in the network, all products can equally be managed by R&S[®]Trusted Objects Manager. R&S[®]Trusted Objects Manager supports, depending on the product, up to 50,000 managed clients. A connection to different LDAP directory services, like Microsoft Active Directory, Lotus Domino, Novell eDirectory or OpenLDAP, ensures a seamless integration in small and large networks. Users and groups can be imported from existing LDAP structures.

Reliable and fail-safe operation can be assured by connecting one or more additional R&S[®]Trusted Objects Managers as standby instances.

Technical Specifications

R&S®Trusted Objects Manager M	1				
CPU	1 x Intel Xeon E5-2620 v4 @ 2,1GHz, 8 physical CPU cores with AES New Instructions (AES-NI)				
RAM	16 GB				
HDD	2 x 1TB SATA in RAID 1 mode				
Ethernet interfaces	2 x GigE				
ТРМ	TPM specification 1.2, EAL4+ certified				
Dimensions	19" Rack Mount				
	4.32 x 43.47 x 74.67 cm				
Power supply	2 x 500 W (redundant)				
Operating temperature	 10 °C to 35 °C (50 °F to 95 °F) at sea level with an altitude derating of 1.0 °C per every 305 m (1.8 °F per every 1000 ft) above sea level to a maximum of 3050 m (10,000 ft), no direct sustained sunlight. 				
	 Maximum rate of change is 20 °C / hr (36 °F / hr) 				
Operating humidity	 Minimum to be the higher (more moisture) of -12 °C (10.4 °F) dew point or 8 % relative humidity. 				
	 Maximum to be the lower (less moisture) of 24 °C (75.2 °F) dew point or 90 % relative humidity
