# 1 Information on the Current Version and History

## 1.1 Version 5.3

### New Functionality

Version	Functions
V5.3	-

### Modified Functionality

Version	Functions
V5.3	-

### Improvements

Version	Improvements
V5.3	Addition of possibly missing system files for the SW installation.
V5.3	Performance improvements

### Known Issues

Version	Known-Issues
V5.3	-

### Additional Information

Version	Additional Information
V5.3	-

## 1.2 Version 5.2

### New Functionality

Version	Functions
V5.2	-

### Modified Functionality

Version	Functions
V5.2	-

### Improvements

Version	Improvements
V5.2	Improving the installation of the software

### Known Issues

Version	Known-Issues
V5.2	-

### Additional Information

Version	Additional Information
V5.2	-

## 1.3 Version 5.1

### New Functionality

Version	Functions
V5.1	-

### Modified Functionality

Version	Functions
V5.1	EMS overlay information: The font is now fixed and limited to four sizes. The position and colors can still be configured. However, these changes take effect immediately and not only for new test configurations.

**Improvements**

Version	Improvements
V5.1	ROI Flashing: Faster detection of transition threshold during configuration
V5.1	Avoiding of shortage of resources even with complex configurations
V5.1	Preventing from opening of windows on non-existent monitors.
V5.1	Preventing startup problems if the user has limited administrative rights
V5.1	Changing the format of EMS information no longer requires restarting AdvISE

**Known Issues**

Version	Known-Issues
V5.1	-

**Additional Information**

Version	Additional Information
V5.1	ROI Analog Indicator: Due to the new features of this ROI, any existing ROI Analog Indicator will be deleted when transferring configuration from version 4.0. These must be added again.
V5.1	ELEKTRA version for supporting the R&S EMC remote interface: 3.20

## 1.4 Version 5.0

### New Functionality

Version	Functions
V5.0	New Option R&S®ADV-K1062: Audio monitoring
V5.0	New Option R&S®ADV-K1070: Image Tracking
V5.0	New function: Global re-adjustment for ROI settings

### Modified Functionality

Version	Functions
V5.0	ROI Analog Indicator: This ROI is renewed and provided with additional features.
V5.0	Extension of R&S EMC SW remote interface for R&S®ELEKTRA

### Improvements

Version	Improvements
V5.0	ROI Flashing: Extension to support the monitoring of dynamic turn indicator
V5.0	ROI OCR Text: Support of Korean and Chinese character
V5.0	ROI Color Change: Improvement when monitoring red signals
V5.0	Improved configuration dialog for adding new ROIs.
V5.0	Simplified addition of multiple ROIs of the same type
V5.0	Enhanced sorting function for test configuration with additional information about user and date of use
V5.0	Support of extended ASCII characters in overlaid EMS messages
V5.0	Minor fixes and improvements

### Known Issues

Version	Known-Issues
V5.0	Complex configuration (> 25 ROI defined) can lead to memory utilization or shortage of resources

### Additional Information

Version	Additional Information
V5.0	ROI Analog Indicator: Due to the new features of this ROI, any existing ROI Analog Indicator will be deleted when transferring configuration from version 4.0. These must be added again.
V5.0	ELEKTRA version for supporting the R&S EMC remote interface: 3.20

## 1.5 Version 4.0

### New Functionality

Version	Functions
V4.0	New region of interest: - OCR Text - OCR Number
V4.0	Support of UVC (USB Video Class) compatible cameras
V4.0	Faster ROI configuration. Each ROI provision dialog has now a button in order to adjust the limit automatically to a value in relation to the current value, e.g. 5 % of the current value
V4.0	R3ToR4DatabaseConversion tool allows the user to convert the AdvISE R3.02 database to AdvISE R4.0 Database. Please see chapter <a href="#">3.2 Updating the Software</a>

### Modified Functionality

Version	Functions
V4.0	The camera selection dialog shows only the actually connected interfaces.

### Improvements

Version	Improvements
V4.0	The fill color of a selected ROI is now transparent so that the element of interest is no longer hidden
V4.0	Creating of large ROIs for object in and object out will no longer end in a system error
V4.0	Creating reports in dialog "Show Results" is much faster now
V4.0	Additional graphical element added to illustrate the meaning of the following ROIs: <ul style="list-style-type: none"> <li>● Color Change ROI</li> <li>● Intensity Change ROI</li> <li>● Light ON ROI</li> <li>● Light OFF ROI</li> </ul>

### Known Issues

Version	Known-Issues
V4.0	-

### Additional Information

Version	Additional Information
V4.0	EMC32 version for supporting the extended remote interface: 10.50 For downloading go to <a href="http://www.rohde-schwarz.com/com/software/emc32/">www.rohde-schwarz.com/com/software/emc32/</a>
V4.0	For controller equipped with NVIDIA graphical card the NVIDIA display driver version must be v392.00 or higher <a href="http://www.nvidia.com/Download/index.aspx">www.nvidia.com/Download/index.aspx</a>
V4.0	New "Advise Generic Driver.DeviceConfiguration" available for remote connection to EMC32. Customer using generic driver for remote connection to EMC32 need to copy the file "Advise Generic Driver.DeviceConfiguration" located in C:\Program Files\Rohde-Schwarz\ADVISE\Documentation to C:\ProgramData\EMC32\Configuration\Monitoring

Version	Additional Information
	(or the location you selected while installing EMC32). For more details please see AdvISE User Manual Chapter 5.2.

## 1.6 Version 3.1

### New Functionality

Version	Functions
V3.1	N/A

### Modified Functionality

Version	Functions
V3.1	N/A

### Improvements

Version	Improvements
V3.1	General stability improvements
V3.1	Several "Flashing Light" ROIs does no longer influence each other on the AdvISE user interface.

### Known Issues

Version	Known-Issues
V3.1	Creating a report in dialog "Show Results" may takes several minutes when many test results are stored in the AdvISE database. Recommendation: Delete unnecessary test results

### Additional Information

Version	Additional Information
V3.1	EMC32 version for supporting the extended remote interface: 10.40.10 with Hotfix EMS #3 For downloading go to <a href="http://www.rohde-schwarz.com/com/software/emc32/">www.rohde-schwarz.com/com/software/emc32/</a>
V3.1	For controller equipped with NVIDIA graphical card the NVIDIA display driver version must be v392.00 or higher <a href="http://www.nvidia.com/Download/index.aspx">www.nvidia.com/Download/index.aspx</a>

## 1.7 Version 3.0

### New Functionality

Version	Functions
V3.0	Initial version

Version	Functions
V3.0	Measurement: Local Test Remote Test Virtual Camera Test
V3.0	Available Options: ADV-1032 Extension to 32 ROIs, order no. 1434.6524.xx ADV-K1050 Virtual Camera, order no. 1434.6530.xx
V3.0	EMC Measurement Software Connections: EMC32, order no. 1119.4638.xx Generic Software which supports the generic command list
V3.0	Supported Camera Connections: AV.io SDI AV.io HDMI

### Modified Functionality

Version	Functions
V3.0	N/A

### Improvements

Version	Improvements
V3.0	N/A

### Known Issues

Version	Known-Issues
V3.0	<ul style="list-style-type: none"> <li>• In rare cases after user interaction, it might be necessary to restart the software.</li> <li>• If several "Flashing Light" ROIs are defined, results of those ROIs might influence each other on the AdvISE user interface. Results transferred to remote interface are correct.</li> </ul>

## 2 Modifications to the Documentation

The current documentation is up-to-date.

## 3 Firmware Update

### Further information

- The software update file for the R&S AdvISE is one file including the main software version number e.g. AdvISE\_Setup\_5.3.x.x.exe. It will be referred as AdvISESetup.exe later in the text. The file can be found on Rohde & Schwarz web page.

### 3.1 Validity Information

The following options are contained in the R&S AdvISE Software

Name and description of option	Order Number
R&S AdvISE-SW - R&S AdvISE Video monitoring Software	1434.6518.02
R&S ADV-K1032 - R&S AdvISE-Extension to 32 ROIs	1434.6524.02
R&S ADV-K1050 - R&S AdvISE Virtual Camera	1434.6530.02
R&S ADV-K1060 - R&S AdvISE OCR Test and Numer	1434.6601.02
R&S ADV-K1062 - R&S AdvISE Audio Monitoring	1434.6618.02
R&S ADV-K1060 - R&S AdvISE Image Tracking	1434.6560.02

### 3.2 Updating the Software

- Go to download page [www.rohde-schwarz.com/software/advise](http://www.rohde-schwarz.com/software/advise) .
- Click on the download link for R&S AdvISE.
- Save the AdvISESetup.exe installation file to a location on your PC for which you have access rights to.
- Double click on the downloaded file to start the installation.
- Follow the instructions on the screen.
- R&S AdvISE icon should now appear on the desktop.
- Double click on the R&S AdvISE icon to launch R&S AdvISE.
- After installation, you find a comprehensive users's manual in "Windows Start – R&S AdvISE". Alternatively click on the help icon in AdvISE main window.
- For more information and other application notes, please go to [www.rohde-schwarz.com/product/advise](http://www.rohde-schwarz.com/product/advise)

## 4 Customer Support

### Technical support – where and when you need it

For quick, expert help with any Rohde & Schwarz equipment, contact one of our Customer Support Centers. A team of highly qualified engineers provides telephone support and will work with you to find a solution to your query on any aspect of the operation, programming or applications of Rohde & Schwarz equipment.

### Up-to-date information and upgrades

To keep your instrument up-to-date and to be informed about new application notes related to your instrument, please send an e-mail to the Customer Support Center stating your instrument and your wish. We will take care that you will get the right information.
