ROHDE & SCHWARZ

Make ideas real

SAVE MONEY AS AN EARLY RTO1000 ADOPTER

Rohde&Schwarz offers a trade-in promotion for the R&S®RTO1000 – which was the first ever oscilloscope from Rohde&Schwarz, launched in 2010. With this promotion, we want to appreciate the trust into the RTO-class oscilloscopes from Rohde&Schwarz.

For any R&S®RTO1000 that is traded-in – independent of its channel count or bandwidth – the following discount levels are granted when purchasing a new R&S®RTO6:

R&S®RTO6 bandwidth	Bandwidth option	Material number	Discount
600 MHz	R&S®RTO6-B90	1802.0182.02	
1 GHz	R&S®RTO6-B91	1802.0199.02	30%
2 GHz	R&S®RTO6-B92	1802.0201.02	
3 GHz	R&S®RTO6-B93	1802.0218.02	40%
4 GHz	R&S®RTO6-B94	1802.0224.02	40%
6 GHz	R&S®RTO6-B95	1802.0230.02	40%
Options (Hardware and Software)			
R&S®RTO6-B.../K...			40%

Customers can reuse their existing probes and accessories, no special discount is granted for those items.

Terms and conditions

This offer is valid from October 1, 2024 to March 31, 2025.

This promotion does not cover service options (WE, CC, CW), probes and other accessories. The standard list prices apply to these items.

This offer cannot be combined with any other discount, promotion or offer, including pre-negotiated key account pricing or EDU discounts.

Channel partners are excluded from this promotion.

Competitors who have bought an R&S®RTO1000 are excluded from this promotion.
