

ROHDE & SCHWARZ

Make ideas real

FAST DELIVERY!

Your new oscilloscope sent to you within 12 days*

www.rohde-schwarz.com/fast-delivery

FAST DELIVERY

12 days (ex-factory) for selected oscilloscope models

From October 1, 2024 until December 31, 2024, Rohde & Schwarz will get your orders for selected oscilloscope models out of the factory door and on the way to you within 12 working days of our receiving your order.

To be sure of having your order fast-tracked through Rohde & Schwarz order-processing you will need to be quick to order, too. To qualify for "fast delivery", you will need to order within 12 working days of receiving a quote for selected oscilloscope model from your Rohde & Schwarz representative.

- ▶ Make sure your order is for the oscilloscopes only. Any and every internal hardware or software option available for the oscilloscope can be included, but no peripherals; no additional probes, test fixtures, accessories or accredited calibration.

Please note, we are not offering a maximum delivery time of your oscilloscopes from us to you. Once your order is shipped, we have no influence on the transportation time, or the import/export regulations and customs clearance that apply in your country.

A maximum of 12 working days "fast delivery" means the time from when the order arrives at order processing in Munich to the point when the package is ready to be picked up by the carrier at the factory.

12 WORKING DAYS

Purchase order
by customer

Order processing at Rohde & Schwarz Munich,
order tracking, production, customizing, shipment

Customs clearance,
transport to destination

* "fast delivery" within 12 working days applies to the Rohde & Schwarz in-house procedures from order processing through to available shipment.

Terms and Conditions for the “fast delivery” orders:

- ▶ Fully approved PAP (all fields green; commercial side clarified).
- ▶ Payment conditions contain open account terms (e.g. 30 days from date of invoice). In the case of prepayment, LC, bank guarantee or similar “fast delivery” is not possible.
- ▶ The order needs to be based on the R&S general terms and conditions or the Sales Representative Agreement (SRA) between the KG and the subsidiary.
- ▶ The ordered instrument configurations need to be technically correct. If technical clarification with 1TD is required, “fast delivery” is not possible and the delivery time will be longer.
- ▶ The “fast delivery” campaign is valid from October 1st, 2024 until December 31st, 2024.
- ▶ Additional probes, test fixtures, other accessories and accredited calibration are not available for “fast delivery”. For these articles, standard conditions / standard delivery times apply.
- ▶ “Fast delivery” is only available while stocks last.
- ▶ Just valid for the following oscilloscope models:
 - **RTH**
 - **RTC**
 - **RTB**
(RTB2002 70 MHz, 2 CH; RTB2004 70 MHz, 4 CH; RTB2004 70 MHz, 4 CH, MSO; RTB2002 100 MHz, 2 CH; RTB2004 100 MHz, 4 CH; RTB2004 100 MHz, 4 CH, MSO; RTB2002 200 MHz, 2 CH; RTB2004 200 MHz, 4 CH; RTB2004 200 MHz, 4 CH, MSO; RTB2004 300 MHz, 4 CH; RTB2004 300 MHz, 4 CH, MSO; RTB2002EDU Oscilloscope, 70MHz, 2CH; RTB2004EDU Oscilloscope, 70MHz, 2CH; GM RTB-BNDL OSCILLOSCOPE 300MHZ 4CH; RTB2004 Oscilloscope 300MHz,4CH,COM)
 - **RTM**
 - **MXO4**
(GM MXO44-242 OSZILLOSKOP 4CH 200 MHz; GM MXO44-243 OSZILLOSKOP 4CH 350 MHz; GM MXO44-245 OSZILLOSKOP 4CH 500 MHz; GM MXO44-2410 OSZILLOSKOP 4CH 1 GHz; GM MXO44-2415 OSZILLOSKOP 4CH 1.5 GHz; GM MXO44-COM4 OSC. FULLY EQUIPPED; GM MXO4-BNDL OSZILLOSKOP 1.5GHZ 4CH; MXO44-BASC; MXO44-PRO; MXO44-ULTM)
