1 Information on the Current Version and History

1.1 Version 2.71

Released: March 2022

Bug fixes:

- Separated Bootloader from normal Firmware update files (NRT-Zxx.BIN). New Firmware Versions now V2.04
- Fixed Material No. in NRT-Z14 Firmware (which previously had the NRT-Z44 Mat.-No. by an oversight)
- Minor bug fixes and typo corrections

Functional improvements:

- None

1.2 Version 2.68

Released: November 2007

Functional improvements:

- Initial release as a separate program (not part of Virtual-NRT anymore)
